Survey on Working Families Tax Credit proposal
Conducted for Economic Security Project

YouGov

1. TESP2

Do you support or oppose a proposal to give a tax cut to lower and middle-income taxpayers, paid for by a tax increase on high-income people? The details of this tax reform proposal are: Taxes would be raised only on those making over $500,000 a year and no one earning less would pay any new taxes. The money raised would be required to fund tax refunds of up to $2,000 per year for people who work and earn less than $75,000. Families with children would receive a slightly larger refund, and caregivers and students would also get this tax cut.
